

Wireless Communication Facility Supplemental Permit Application and Applicant's Guide

A permit is required for all facilities for the provision of wireless communication services. Applicant's for a Wireless Communication Facility ("WCF") permit must complete and submit this application with attached exhibits, in addition to any entitlement application required pursuant to Lake Forest Municipal Code (LFMC) Chapter 9.162, and all documentation requested thereunder.

Submit all application materials to the following location:

City of Lake Forest
Community Development Department
100 Civic Center Drive
Lake Forest, CA 92630

Appointments are available during business hours (<http://www.lakeforestca.gov/454/City-Hours>). Please call (949) 461-3491 to set up an appointment.

Complete the following application in its entirety. All written responses to the questions below must be clear and legible. Several questions require you to attach supplemental documentation and commentary to support your answers. All exhibits must be marked as directed in the application. All supporting documentation must be clear and legible. All exhibits must be stapled or bound to the application or properly ordered if the application is submitted electronically.

In addition to a complete application(s) and public noticing requirements pursuant to LFMC 7.34.040, WCF applicants must provide twenty (20) days advance written notice to the City of an upcoming "shot clock" expiration date to provide the City with a final opportunity to approve or deny the application before it is deemed approved.

Wireless Communication Facility Permit Application

Received: Initials _____ Date _____

I. Contact Information

1. Property address (or, if multiple locations are involved, attach list of each location): _____

2. Assessor's Parcel No(s): _____

3. Applicable homeowner's/business association:

4. Contact information: _____

a. Wireless provider or operator:

Company Name: _____

Contact Person: _____

Street Address: _____

City, State & Zip: _____

Phone No.: _____

Email: _____

b. Applicant/Primary Contact:

Name: _____

Street Address: _____

City, State & Zip: _____

Phone No.: _____

Email: _____

Your property interest in the proposed location:

Lease License Ownership Other: _____

II. Application Type

For numbers 1 – 2 below, provide a description supporting your selections. Attach all rules, regulations, agreements, court documents, or other materials on which you base your response. Attach a description and supporting documentation marked as Exhibit A.

1. Check the box(es) below that identify the statute(s) you believe govern(s) the application request:
 - Section 6409(a) of the Middle Class Tax and Job Creation Act of 2012 for collocation or modification to an existing commission-authorized Wireless Communications service
 - Section 332(c)(7) of the Communications Act for the provision of personal wireless communications facilities
 - California Government Code Section 65964.1 (AB-57)
 - California Government Code Section 65850.75 (AB-2421) for the installation of emergency standby generators

2. Check the box below pertaining to the shot clock you believe applies to your application:
 - 150 day shot clock for new facilities
 - 90 day shot clock for modifications resulting in a substantial change
 - 60 days shot clock for modifications that do not result in a substantial change
 - 60 days shot clock for modifications pursuant to California government Code Section 65850.75 (AB-2421) with applicable 10 day notice of completion

3. List below the application or permit numbers of all pending applications and permits issued by the City to applicant (or a related company) which relate directly or indirectly to this application. Include the date such permits were filed and issued. Include attachments if necessary as Exhibit B.
 - i. _____
 - ii. _____
 - iii. _____

4. If you indicated that your application is governed by California Code Section 65850.75 (AB-2421), check the applicable boxes below **and skip to section "IX. Certification" on the final page:**

Applicant certifies that:

 - The subject emergency standby generator is rated below 50 horsepower
 - The subject emergency standby generator has a double-wall storage tank which does not exceed 300 gallons
 - The macro cell tower site at which the emergency standby generator is proposed to be installed is an existing site that was previously permitted by the city of Lake Forest

- The dimensions of the emergency standby generator and storage tank are cumulatively no more than 250 cubic feet in volume
- That the emergency standby is located not more than 100 feet from the physical structure of the macro cell tower or base station

III. Description of Project Coverage and Purpose

1. Provide a narrative description of the project. Your response shall include, but not be limited to, a description of the proposed facility or modification, the anticipated construction activities involved, schedule for the same, the maintenance requirements, and the number of antennas to be installed. Provide any supporting documentation regarding the purpose of the project. **Attach and mark responses and documentation as Exhibit C1.**
2. Check the box below that most accurately identifies the primary purpose of the project:
 - Increase network capacity without adding new radio frequency coverage
 - Provide significant new radio frequency coverage in areas without radio frequency coverage
 - Increase existing radio frequency coverage in area with coverage
 - Other: _____
3. Will the facilities proposed to be installed by the applicant be used for:
 - Cable television or video entertainment services
 - An Open Video System under FCC rules
 - Any service not authorized by Applicant's California Public Utilities Commission Certificate
 - None of the above
4. Provide a description identifying the geographic service area for the proposed installation. **Attach and mark as Exhibit C2.**

IV. Project Location and Authorizations

1. If the facility will be sited in the Public Right-of-Way ("PROW"), state or provide the following:
 - a. Your authority to locate the facility in the PROW (state law, federal law, or franchise agreement); **Attach and mark as Exhibit D1a.**
 - b. If applicable, include a copy of the certificate of public convenience and necessity (CPCN). **Attach and mark as Exhibit D1b;**
 - c. Whether a new pole (that is not replacing an existing pole) in an otherwise permitted location is proposed. If so, provide a new pole justification analysis to demonstrate why existing infrastructure cannot be utilized and how the new pole is the least intrusive means possible. **Attach and mark as Exhibit D1c.**

2. If the facility will be co-located on a structure owned by someone other than the owner of the proposed installation, provide written authorization by any and all property owners authorizing the placement of the facility on or in the property owner's property. **Attach and mark as Exhibit D2.**
3. If applicable, provide the following letter(s) of authorization to collocate, modify, or provide services:
 - a. If the applicant is an agent, provide a letter of authorization from the owner of the facility. **Attach and mark as Exhibit D3a.**
 - b. If the owner will not directly provide wireless communications services, provide a letter of authorization from the person or entity that will provide those services. **Attach and mark as Exhibit D3b.**
4. Are you willing to share facilities with another service provider? If so, provide a description of your willingness to share facilities. Specify whether (1) you would be willing to share an available conduit, fiber strands in a fiber cable, splice boxes, or trenching costs in a joint construction project; (2) you reviewed pending applications or recently granted permits in the City for opportunities to share facilities. **Attach and mark as Exhibit D4.**
5. In areas where it would minimize the impact on residents and business, will you be using directional boring? If not, why not. **Attach and mark as Exhibit D5.**

V. Radio Frequency ("RF") Emissions and Monitoring Requirements

1. Provide proof or certification of completion of the RF emissions exposure guidelines checklist contained in Appendix A to the Federal Communications Commission's ("FCC") "Local Government Official's Guide to Transmitting Antenna RF Emission Safety". **Attach and mark as Exhibit E.** The Guide can be found at: http://wireless.fcc.gov/siting/FCC_LSGAC_RF_Guide.pdf .

2. Pursuant to the completed checklist referenced above, will the facility be "categorically excluded" under the FCC regulations for RF emissions?

Yes

No

If you selected "No" above, provide a technically detailed report certified by a qualified radio frequency engineer indicating the following:

- a. The amount of RF emissions expected from the proposed facility;
- b. The associated accessory equipment required;
- c. The cumulative impacts of the other existing facilities at the site to the extent permitted by federal law, including co-located facilities;
- d. That the proposed facility individually or combined with the cumulative emissions of on-site facilities will not exceed applicable standards set by the FCC.

VI. Other Requirements

1. All other documentation certifying that all applicable licenses or other approvals required by the FCC have been obtained to provide the services proposed in connection with the application. **Attach and mark as Exhibit F1.**
2. If applicable, copies of all documents the applicant is required to file pursuant to the Federal Aviation Administration regulations for the facility. **Attach and mark as Exhibit F2.**
3. All other documentation required by the LFMC. **Attach and mark as Exhibit F3.**

VII. Exceptions to the Application Requirements

1. Do you believe you are entitled to an exception to the requirement(s) of this application or the LFMC?
 Yes
 No
2. If you selected "Yes" above, provide all information and studies necessary for the City to evaluate a request for an exception to the requirements of this application. The narrative must demonstrate with clear and convincing evidence that denial of the facility would violate state and/or federal law, violate any applicable provision of the Lake Forest Municipal Code or deprive the applicant of its rights under state and/or federal law. **Attach and mark as Exhibit G.**

VIII. Supplemental Materials for Projects Subject to 6409

1. You must complete this section if you selected the box in Section II titled "Application Type" that indicates your project is subject to 6409. For parts (1) – (6), provide a narrative description and any supporting documentation for the selections you make below. **Attach and mark as Exhibit H.**
 - a. Is the application a request to permit an eligible facility (Class 7 as defined in LFMC Sec. 9.162.040)?
 Yes
 No
 - b. Will the proposed project cause a substantial change in the physical dimension of the structure? If yes, provide a written explanation of the changes and include in Exhibit H.
 Yes
 No
 - c. Does the structure at issue involve an existing wireless tower or base station?
 Yes
 No

- d. Check the box(es) below that are applicable to your project:
- Installation of new transmission equipment
 - Removal of transmission equipment
 - Replacement of transmission equipment
- e. If your project does not involve excavation, tower or base station installation, or tower or base station modification in the PROW, answer the following questions:
- i. Does the project exceed the overall height of the structure on which it is mounted by more than ten (10) feet?
 - ii. Will the project require excavation near the ground-mounted equipment?
 - iii. Will the project preserve all existing concealment elements of the current tower or base station?
 - iv. Will the proposed collocation preserve all prior conditions of approval that do not conflict with FCC regulations for a substantial change?
 - v. Does the project propose adding four or fewer additional equipment cabinets?
- f. If your project involves excavation, tower or base station installation, or tower or base station modification in the PROW, answer the following questions:
- i. Does the project propose a height increase wherein antennas exceed the height of the City-standard signal pole, light standard or other apparatus to which they are attached by more than six (6) feet?
 - Yes
 - No
 - ii. Does the project propose a width increase of less than 6 feet?
 - Yes
 - No
 - iii. Does the project propose excavation entirely within the anticipated lease area of private property?
 - Yes
 - No
 - iv. Will the project preserve all existing concealment elements of the current tower or base station?
 - Yes
 - No
 - v. Will the proposed collocation preserve all prior conditions of approval that do not conflict with FCC regulations for a substantial change?
 - Yes
 - No
 - vi. Does the project propose adding four or fewer additional equipment cabinets?
 - Yes
 - No

IX. Certification

Applicant understands and agrees that no permit or approval may be issued until Applicant has the legal right to use the Subject Property. Applicant agrees to comply with the City's land use and planning process (including public notification) for all installations including but not limited to structures or facilities to be placed in or adjacent to the City's PROW. In the event Applicant is seeking to place facilities on City-owned property, City will require a license agreement prior to the placement of any facilities unless Applicant is exempt from such requirement under LFMC section 9.162.050(D)(8). Any necessary license agreement is entirely outside of City's regulatory process and is solely granted or denied in the City's capacity as a property owner. The applicant further agrees to provide all necessary information requested by the City including required documentation to conduct applicable CEQA review.
