Subject: Senate Bill 18 and Assembly Bill 52 Consultation Lists and Sacred Lands File Search Request for the proposed Nakase Nursery/Toll Brothers EIR Project in Lake Forest, Orange County, California

Dear Dr. Totton:

Attached please find a Local Government Tribal Consultation List Request and a map showing the location of the proposed Nakase Nursey/Toll Brothers EIR Project (project) in Lake Forest, Orange County, California. Specifically, the project is depicted on the United States Geological Survey *El Toro, California* 7.5-minute topographic quadrangle map in Township 06 South, Range 08 West, Sections 1 and 12, San Bernardino Baseline and Meridian.

LSA is assisting Marie Luna (mluna@lakeforestca.gov), Senior Planner for the City of Lake Forest, in preparing for Native American consultation for the project per Senate Bill 18 and Assembly Bill 52. As indicated on the attached request, please conduct a Sacred Lands File search, notify us of any Native American cultural resources that might be impacted, and include a consultation list of Native Americans that may be contacted for the Senate Bill 18 and Assembly Bill 52 Native American consultation processes.

Thank you very much for your assistance. If you have any questions or comments, please contact me at (949) 553-0666, or at kerrie.collison@lsa.net.

Best Regards,

RE: Proposed Nakase Nursery/ Toll Brothers Project, City of Lake Forest; El Toro USGS Quadrangle, Orange County, California

Dear Ms. Luna:

Attached is a Consultation List of tribes with traditional lands or cultural places located within the boundaries of the above referenced project.

Government Code §65352.3 (SB-18) **requires local governments** to consult with California Native American tribes identified by the Native American Heritage Commission (NAHC) for the purpose of avoiding, protecting, and/or mitigating impacts to cultural places in creating or amending general plans, including specific plans. As of July 1, 2015, Public Resources Code Sections 21080.3.1 and 21080.3.2 (AB-52) require **public agencies to consult** with California Native American tribes identified by the NAHC for the purpose mitigating impacts to tribal cultural resources:

Within 14 days of determining that an application for a project is complete or a decision by a public agency to undertake a project, **the lead agency** shall provide formal notification to the designated contact of, or a tribal representative of, traditionally and culturally affiliated California Native American tribes that have requested notice, which shall be accomplished by means of at least one written notification that includes a brief description of the proposed project and its location, the lead agency contact information, and a notification that the California Native American tribe has 30 days to request consultation pursuant to this section. (Public Resources Code Section 21080.1(d))

The law does not preclude agencies from initiating consultation with the tribes that are culturally and traditionally affiliated with their jurisdictions. The NAHC believes that in fact that this is the best practice to ensure that tribes are consulted commensurate with the intent of the law.

In accordance with Public Resources Code Section 21080.1(d), formal notification must include a brief description of the proposed project and its location, the lead agency contact information, and a notification that the California Native American tribe has 30 days to request consultation. The NAHC requests that lead agencies include in their notifications information regarding any cultural resources assessment that has been completed on a potential "area of project affect" (APE), such as:

1. The results of any record search that may have been conducted at an Information Center of the California Historical Resources Information System (CHRIS), including, but not limited to:
  - A listing of any and all known cultural resources have already been recorded on or adjacent to the APE;
  - Copies of any and all cultural resource records and study reports that may have been provided by the Information Center as part of the records search response;
  - If the probability is low, moderate, or high that cultural resources are located in the APE.

- Whether the records search indicates a low, moderate or high probability that unrecorded cultural resources are located in the potential APE; and
  - If a survey is recommended by the Information Center to determine whether previously unrecorded cultural resources are present.
2. The results of any archaeological inventory survey that was conducted, including:
- Any report that may contain site forms, site significance, and suggested mitigation measures.
- All information regarding site locations, Native American human remains, and associated funerary objects should be in a separate confidential addendum, and not be made available for public disclosure in accordance with Government Code Section 6254.10.
3. The results of any Sacred Lands File (SFL) check conducted through Native American Heritage Commission. A search of the SFL was completed with negative results.
4. Any ethnographic studies conducted for any area including all or part of the potential APE; and
5. Any geotechnical reports regarding all or part of the potential APE.

Lead agencies should be aware that records maintained by the NAHC and CHRIS is not exhaustive, and a negative response to these searches does not preclude the existence of a cultural place. A tribe may be the only source of information regarding the existence of a tribal cultural resource.

This information will aid tribes in determining whether to request formal consultation. In the case that they do, having the information beforehand will help to facilitate the consultation process.

Lead agencies or agencies potentially undertaking a project are encouraged to send more than one written notice to tribes that are traditionally and culturally affiliated to a potential APE during the 30-day notification period to ensure that the information has been received.

If you receive notification of change of addresses and phone numbers from tribes, please notify me. With your assistance we are able to assure that our consultation list contains current information.

If you have any questions, please contact me at my email address: [gayle.totton@nahc.ca.gov](mailto:gayle.totton@nahc.ca.gov).

Sincerely,

Subject: Invitation to Consult Under Senate Bill 18, General Plan Amendment for the Proposed Nakase Nursery/Toll Brothers Project Environmental Impact Report, Lake Forest, Orange County, California

Dear Mr. Lawson:

This letter is to notify you of the proposed Nakase Nursery/Toll Brothers Project (project) Environmental Impact Report in Lake Forest, Orange County, California, and to formally invite you to request consultation with the City of Lake Forest (City) regarding the project pursuant to Senate Bill 18 ([SB 18] Burton 2004).

SB 18 became effective on March 1, 2005, and requires local governments to invite Native American tribes identified by the Native American Heritage Commission (NAHC) to participate in consultation about proposed General and Specific Plan adoptions or amendments for the purpose of preserving or mitigating potential impacts from a project to Native American cultural places. Although the Sacred Lands File search results for the project area were negative, the NAHC has identified your tribe as having traditional lands or cultural places in the project vicinity. The proposed project would necessitate amendments to the City's General Plan and is therefore subject to the requirements of SB 18.

The proposed project will include a Development Agreement, an Area Plan, a Master Tentative Tract Map, a General Plan Amendment, and a Zone Change for a parcel encompassing 122 acres on what is currently known as the Nakase Nursery in Lake Forest, Orange County, California. Please see Figure 1 (attached) for the project's location.

If approved, the project would allow the development of: (1) approximately 600 to 800 residential units at a density ranging between 6 to 18 units per acre; (2) a senior affordable rental community; (3) parks; (4) open space and walking trails; (5) a recreation facility; and (6) an elementary school for approximately 1,000 Kindergarten through sixth-grade students. School site locations are currently under review with the Saddleback Unified School District and the California Department of Education. The school site may be located along either Bake or Rancho Parkways or a combination thereof.

A records search for the project area was completed at the South Central Coastal Information Center of the California Historical Resources Information System at California State University, Fullerton. The records search indicated there are no known prehistoric sites within the proposed project area. Twenty-five cultural resources are located within 0.25 mile of the project. A Sacred Lands File search requested from the NAHC was negative for the project area.

If you would like to participate in formal SB 18 consultation for this proposed project, please direct your request in writing by letter or email to Marie Luna, Senior Planner for the City of Lake Forest, at 25550 Commercentre Drive, Suite 100, Lake Forest, CA 92630, or [mluna@lakeforestca.gov](mailto:mluna@lakeforestca.gov). You may also call Ms. Luna at (949) 461-3466 for additional information. A response to Ms. Luna by May 23, 2018, would be appreciated.

Should your tribe participate in the consultation process, please know that at your request, any sensitive information you share with the City regarding cultural places and/or sacred sites will be kept strictly confidential and will not be divulged to the public. Thank you for your participation in this process.

Respectfully,
