Subject: Environmental CE for Jeronimo Widening?

David,

You'll have to forgive me if we discussed this at the last meeting. What's the status of the CE documents for Jeronimo widening? Are they done? I'm assuming they need City signatures & to be filed with the County & through the new State tracking website. We're going to be briefing Council in closed session again over the eminent domain, so I want to make sure we've got the environmental done before we take the action in open session.
