You got it – I'll reach out to chambers group and get you a rundown of the anticipated scope and fees.

Thanks!

External Email.

David,

Can you give me a cost estimate on the CEQA work?

Doug E

Doug – I just dug through our files and it looks like CEQA was not one of the tasks requested in the original RFP scope. It has been some time since this proposal went out so I cannot recall clearly if Taylor said anything about what the City was intending to do outside of the civil proposal, however, it has been our assumption that any necessary environmental review/processing was happening on the City's end on this one. Let me know if you need any help on this and I'll be happy to loop in chambers group to assist you with the work, though.

Thanks!

Doug,

You and I must have been on the same wavelength with Jeronimo on our minds. I just had finished sending my email to SCG when I saw your emails.

Regarding CEQA, I know that we did not have any CEQA work in our scope however I would need to dig in to see what Taylor had said regarding the City's intent on that. Let me get back to you with any information I can dig up regarding the RFP and the proposal process to help you along.

Thanks!

I copied you on that e-mail to Paragon. The other question was if the project has had the CEQA clearance has been completed. Do you know if we've done this?
